## SUMMARY

Experienced Information Technology fresh graduate in Software engineering, skilled in Java, and SQL.

Strong problem-solving and collaboration abilities. Eager to contribute to innovative projects and organizational growth.

---

## EDUCATION

**Bachelor's degree** – Information Technology, Software Engineering Track      GPA: **4.58**      King Abdulaziz University      **2024**

---

## EXPERIENCE

**Member of The Exam Committee – King Abdulaziz University**      **JUN 2022 – DEC 2023**

As a member of the exam committee in the Information Technology Department of the Faculty of Computing and Information Technology, I collaborated with a team to organize the exam schedule for IT department courses and represented my colleagues at the same level.

**Application Developer – King Abdulaziz University**      **JUN 2022 – AUG 2022**

During my **Summer training** in the management of scientific societies, I collaborated with a team to develop an application for the management of scientific societies, I learned a new programming language Flutter Dart, and implemented one release of the application at the same time.

---

## PROJECTS

**Tagrest Website – King Abdulaziz University**      **JAN 2023 – MAR 2023**

In the Software Engineering course, I learned how to develop an online store website with high security using Java, HTML, CSS, and MySQL Workbench.

**Jahezli App – King Abdulaziz University**      **JAN 2023 – MAR 2023**

In the design patterns course, I learned how to design the Jehazli system using the class diagram to describe the structure of the system then I implemented the system according to the design using Java programming language.

---

## COURSES

- Visual Elements of User Interface Design– California Institute of the Arts (FEB 2024)
  - Introduction to DevOps – IBM (JAN 2024)
  - CCNAv7: Switching, Routing, and Wireless Essentials course – Cisco Academy (JUL 2023)
  - Future Path Essential Program – The Misk Initiatives Center (JUL 2020)
- 

## SKILLS

- Programming languages: Java, JavaScript, HTML/CSS, SQL.
  - Databases: Oracle SQL, MySQL Workbench, phpMyAdmin, Firebase.
  - Microsoft Office: Excel, Project, Word, PowerPoint.
  - Soft Skills: Problem-Solving, Leadership, Collaboration and Teamwork, Time Management, Detail- oriented, Strong Communication.
- 

## LANGUAGES

Arabic    English    Turkish
